

FOR IMMEDIATE RELEASE

CANADA'S NEWEST "COAST-TO-COAST" ACCOUNTING ASSOCIATION

KNV Chartered Accountants LLP welcomes Saskatchewan firm into Association

Vancouver, British Columbia – KNV Chartered Accountants LLP joins DFK Canada Inc. (DFK) in welcoming the chartered accounting firm of Hergott Duval Stack LLP as their newest member firm, which now gives the association representation in all provinces across Canada.

"We had been looking for a member in Saskatchewan for a number of years but were not willing to settle for anything less than the exceptional quality of our existing members. We are delighted to have found these qualities in Hergott Duval Stack LLP and feel certain that they will make a substantial contribution to our association," said Laura Varga, DFK Canada Inc. Executive Director.

DFK Canada Inc. is a national association of 15 independent accounting firms serving major centers across Canada. Now the 8th largest accounting association in Canada, with over 140 partners, more than 750 staff, and combined annual revenues in excess of \$130 million, DFK Canada Inc. members offer a practical, personalized alternative to dealing with large multinational and national firms. Their affiliation with DFK International, a major association of independent accounting firms and business advisers, with over 300 offices across the world, enhances their world-wide reach, provides additional resources, and expands the world of opportunity for members and their clients.

States Blair Davidson, Managing Partner of Hergott Duval Stack LLP, "We short-listed three international associations and DFK won by a clear margin. We were impressed by their commitment to recruiting excellent firms, their high quality support and collaboration, and their national and international coverage. DFK extends our reach to over 80 countries and provides a solid platform on which to develop our firm's national and international practice."

KNV Chartered Accountants LLP has been a member of DFK for many years and the value of being a member increases each year. We have access to specialized knowledge and the sharing of professional resources and best practices with the offices across Canada and world-wide, yet we maintain our autonomy and independence. Our clients and staff have all benefited from our firm's connections within DFK Canada Inc. and DFK International," stated Paul Vivian of KNV Chartered Accountants LLP.

The Executive Office of DFK Canada Inc. is located in Edmonton, Alberta. The International Executive Office is located in London, England.
